### Destination Information

As one of the most popular tourist destinations in Mexico, Cancun attracts about four million visitors each year to its pristine white beaches, its top-notch resort and hotel scene and its crystal blue water. The city is home to hundreds of hotels that line the beaches in an area called the hotel zone, attracting all types of guests, from traveling business people to timeshare owners to families. The city is probably most famous for its Mayan ruins, which dot the landscape around this southern region of Mexico. From El Rey to Tulum, the ancient stone remains are unique archaeological attractions that tell the original story of the now bustling modern city. Many people also visit the area for its great dive sites. Colorful coral reefs and diverse sea life are located right offshore, and a variety of inland cenotes (deep natural wells) attract diving enthusiasts to explore the rich underwater worlds of Cancun.
